

HUMPHREYS & PARTNERS ARCHITECTS, L.P

MEET YOUR CHICAGO OFFICE TEAM

Some of our best multifamily developments have been built in the Midwest and designed by our Chicago-based team. Maura Braun, our Midwest Business Developer, adds her thoughts below on our successfully completed projects.

OCTAVE Champaign, IL
538-bed Student Housing

"It is amazing to see how the project totally transformed the block into a vibrant pedestrian-focused environment just blocks from campus. All of the amenity spaces are oriented towards the street, so the building is always alive with activity and light when you're walking by on the sidewalk."

ECHO PARK AT PERRY CROSSING Plainfield, IN
274-unit e-Urban®/Big House®

"The interiors of the project weave colors from the Midwestern prairie surroundings, so the earthy tones give it a comfortable vibe, while black and gold accents around the amenities bring a bit of urban luxe in a suburban setting."

555 FLATS Horsham, PA
258-unit Interior Corridor

THE BOND Novi, MI
258-unit Interior Corridor
